THE VIDEOGRAPHER: This is tape

3

one. We're now on the record at

4

12:47 p.m., Monday, February 27,

5

2012.

6

This is the deposition of

7

Dr. Peter Varriale in the matter of

8

Springer versus Merck. This

9

deposition is being held at the

10

offices of Dr. Varriale, located at

11

601 North Franklin Avenue, Garden

12

City, New York.

13

The court reporter is Mary

14

Robold. I am the legal videographer,

15

Mauricio Quintero.

16

Will counsel please introduce

17

themselves for the record.

18

MR. SACKS: My name is Bradley

19

Sacks, S-A-C-K-S, attorney for the

20

plaintiff.

21

MR. WALTHALL: My name is Greg

22

Walthall, that's W-A-L-T-H-A-L-L,

23

from the law firm of Hoey, King,

24

Epstein, Prezioso & Marquez, and I

25

represent Defendants Stephanie Cedro

1 P.L. VARRIALE, M.D.

2 and Merck & Company, Incorporated.

3 THE VIDEOGRAPHER: Will the
4 court reporter please swear in the
5 witness.

6 THE COURT REPORTER:
7 Dr. Varriale, please raise your right
8 hand.

9 Do you swear or affirm the
10 testimony you are about to give will
11 be the truth, the whole truth and
12 nothing but the truth?

13 THE WITNESS: Yes, I do.

14 EXAMINATION BY

15 MR. WALTHALL:

16 Q. Good afternoon, Dr. Varriale.

17 A. Hello.

18 Q. My name is Greg Walthall. Have
19 we met before today?

20 A. Not in person.

21 Q. Did we have one telephone
22 conversation about this case?

23 A. Yes.

24 Q. Okay. And my office has
25 retained you to, to examine Miss Springer

1 P.L. VARRIALE, M.D.

2 in connection with this lawsuit?

3 A. Yes.

4 Q. Okay. And now, I just called
5 you Doctor, can you explain to me what that
6 means or what kind of doctor you are?

7 A. I'm a medical doctor. It's a,
8 it's a person who needs to complete certain
9 qualifications to get a license and degree.

10 Q. And when you say "certain
11 qualifications," is there an educational
12 component?

13 A. Yes.

14 Q. Can you just briefly describe
15 what your educational background is?

16 A. I went to Hofstra University
17 for four years, and then I went to
18 Downstate Medical School, graduating in
19 1979, then I spent one year in general
20 surgery at Nassau County Medical Center,
21 and then I spent four years in the Bronx at
22 Jacobi Hospital, Montefiore Medical Center
23 as a resident in orthopedic surgery.

24 Q. When you said you're a resident
25 in orthopedic surgery, what did that

1 P.L. VARRIALE, M.D.

2 entail?

3 A. That's a training program where
4 you learn how to become an orthopedic
5 surgeon. It's, it's, essentially, you
6 learn how to make orthopedic diagnoses, you
7 learn how to do orthopedic physical exam
8 and how to do orthopedic surgery.

9 Q. So you're an orthopedic
10 surgeon?

11 A. Yes.

12 Q. And how long have you been an
13 orthopedic surgeon?

14 A. Since 1984.

15 Q. Are you board certified?

16 A. Yes.

17 Q. What does it mean to be board
18 certified?

19 A. Again, you have to finish your
20 qualifications of doing the four years of
21 orthopedic residency, the one year of
22 general surgery, and then you have to be in
23 practice for two years, and then you have
24 to pass an oral exam, you have to pass a
25 written exam, and you have -- your director

1 P.L. VARRIALE, M.D.

2 of your residency program has to approve
3 you for becoming board certified.

4 Q. And can you tell us what the
5 oral exam entails, do you go before a group
6 of people, one person, what do you do?

7 A. It's actually a series of
8 about, it's a series of five doctors.
9 They're, you know, you get examined by one,
10 then when you get finished you get examined
11 by the next. It's about a three- or
12 four-hour process.

13 Q. And what board is it that
14 certifies you?

15 A. It's the American Board of
16 Orthopedic Surgery.

17 Q. And you have been board
18 certified since about 1984?

19 A. Since 1986.

20 Q. 1986, excuse me.

21 MR. WALTHALL: At this time, I
22 would offer the witness, Dr. Peter
23 Leo Varriale, as an expert witness.

24 MR. SACKS: I'm sure the court
25 will rule.

1 P.L. VARRIALE, M.D.

2 MR. WALTHALL: Okay.

3 Q. Dr. Varriale, you said you've
4 been in practice since about 1986 or 1984?

5 A. Eighty-four.

6 Q. Okay. And during that practice
7 have you always been an orthopedic surgeon?

8 A. Yes.

9 Q. And as an orthopedic surgeon,
10 can you tell us some of the things -- do
11 you specialize in certain things other than
12 just general orthopedics?

13 A. I'm essentially a general
14 orthopedic surgeon. I treat all parts of
15 the body, but I restrict my surgery to
16 certain parts of the body; in other words,
17 I do not do surgery of the spine, I do not
18 do complicated hand or foot surgery.
19 Otherwise I do all the other surgeries.

20 Q. Would that include shoulders,
21 knees?

22 A. Correct.

23 Q. Feet?

24 A. Yes.

25 Q. Okay. Dr. Varriale, did you

1 P.L. VARRIALE, M.D.

2 have an opportunity to examine Lisa
3 Robinson Springer in connection with this
4 case?

5 A. Yes.

6 Q. Can you tell us what date that
7 exam was?

8 A. June 7, 2011.

9 Q. Okay. And how was it that you
10 came to examine Miss Springer in connection
11 with this case?

12 A. She was referred to me through
13 a intermediary company, I believe.

14 Q. Okay. And do you know whether
15 or not my office retained that intermediary
16 company or --

17 A. I believe so.

18 MR. SACKS: Objection.

19 Q. When you were retained to
20 examine Miss Springer in relation to this
21 case, did I speak to you before you
22 conducted that examination?

23 A. No.

24 Q. Did you consult with any other
25 medical professionals before you conducted

1 P.L. VARRIALE, M.D.

2 Miss Springer's examination?

3 A. No.

4 Q. What was the date that you
5 examined Miss Springer?

6 A. June 7, 2011.

7 Q. Was it here in your office in
8 Garden City, Long Island?

9 MR. SACKS: Objection to the
10 leading.

11 A. She was examined in New York
12 City.

13 Q. Okay. And when you examine
14 someone for this type of, for a
15 litigation-type case, what is it that you
16 do?

17 A. I take a history, do a physical
18 examination, review records.

19 Q. When you say "take a history,"
20 what do you mean?

21 A. I ask the claimant about how
22 the accident happened, how she felt around
23 the accident, where she went the day of the
24 accident, other doctors she visited after
25 the accident, any tests that she's had

1 P.L. VARRIALE, M.D.

2 done, any procedures she's had done, how
3 she's feeling with all her injuries, and
4 any past medical history, any medications
5 she's taking. Those types of things.

6 Q. And when you started to talk to
7 Miss Springer about this to take a history
8 from her, did she provide a full history
9 for you?

10 MR. SACKS: Objection to the
11 leading, objection to the form.

12 A. She would, as per her attorney,
13 she would only allow me to ask questions
14 about her injuries -- about which part of
15 the body hurts.

16 Q. Now, when you say "as per her
17 attorney," was her attorney present during
18 the examination?

19 A. I don't believe so.

20 Q. Do you know whether or not she
21 told you that her attorney told her that?

22 MR. SACKS: Objection, his
23 answer speaks for itself.

24 A. Yes, she told me that her
25 attorney told her not to -- only to answer

1 P.L. VARRIALE, M.D.

2 questions about her physical injuries.

3 Q. Okay. And when you conducted
4 the physical examination of Miss Springer,
5 can you tell us what you did, what you
6 examined her -- how you examined her,
7 physically, what did you ask her to do?

8 A. Well, when I examined the neck,
9 I asked her to move her neck, I ask her to
10 resist my hand to test the muscle strength,
11 I ask her -- I touch different parts of her
12 extremity to, upper extremity, to test for
13 how she's feeling; in other words, the
14 sensation.

15 Q. Doctor, I just want to
16 interrupt you for a second. When you say
17 "upper extremity," do you mean her arms,
18 her legs or something else?

19 A. Her arms.

20 Q. If you could continue.

21 A. And I do a reflex; in other
22 words, I take a reflex hammer and, for the
23 neck I would test the reflex in the elbow,
24 in the back of the elbow.

25 Q. And a reflex hammer, those are

1 P.L. VARRIALE, M.D.

2 the little hammers they used to use on,

3 like, Fred Flintstone or something --

4 MR. SACKS: Objection to the

5 form of the question.

6 Q. -- to see whether or not there

7 were reflexes in the knee or something like

8 that, correct?

9 MR. SACKS: Fred Flintstone

10 used a large hammer.

11 MR. WALTHALL: It was a large

12 hammer in Fred Flintstone.

13 Q. But you would use one of the

14 smaller hammers, correct?

15 A. Yes.

16 MR. SACKS: Why don't you have

17 the doctor describe what he used.

18 Q. Can you describe for us what

19 you used, Doctor?

20 A. Well, it's a small metal handle

21 about four inches, and it has a triangular

22 rubber piece on the top, and you use the

23 rubber piece to tap on certain parts of the

24 body to see if the body is reacting to

25 this, to this, you know, to this tapping on

1 P.L. VARRIALE, M.D.

2 the tendons.

3 Q. I interrupted you with my
4 question about the hammer. Did you
5 complete your answer or had you
6 completed --

7 A. I'm sorry, what was the
8 question?

9 Q. The question is, what did you
10 do physically when you were doing the
11 examination of Miss Springer, physically,
12 what did you do?

13 A. I would take the reflex hammer,
14 this is the examination of the neck, and I
15 would, again, tap on her biceps tendon and
16 her triceps tendon to elicit, you know,
17 reflexes.

18 Q. And were there any -- did you
19 do any kind of physical examination for her
20 back that differed from the things that
21 you've already explained to us?

22 A. It's essentially the same.
23 Except, I'm sorry, except you're examining
24 the legs instead of the arms.

25 Q. Okay. And when you say

1 P.L. VARRIALE, M.D.

2 "examining the legs," you then use
3 the reflex hammer to test those reflexes as
4 well?

5 A. Correct.

6 Q. And did you examine her
7 shoulder?

8 A. Yes.

9 Q. What did you examine on her
10 shoulder?

11 A. You mean how I --

12 Q. Yes, physically how you did it,
13 I'm sorry.

14 A. I would ask her to move her
15 arm, her shoulder, this is shoulder joint
16 (indicating). I would ask her to move her
17 arm as high as she can go, move her arm
18 out, that's external rotation, move her arm
19 in, that's internal rotation. I would use
20 my fingers and press on her shoulder and
21 ask her if it hurts. And I would test for
22 strength, again, I would test for strength
23 of internal rotation by resisting, she
24 would -- I ask her to push out, and I would
25 resist her to see what her strength is. I

1 P.L. VARRIALE, M.D.

2 would resist her biceps to see what the
3 biceps strength is, and I would resist her
4 extension to see what that muscle strength
5 was like (indicating).

6 Q. Now, when you took the history
7 from Miss Springer, what did she tell you
8 was wrong with her?

9 A. She claimed of pain in her
10 neck, her lower back. The low back pain
11 was radiating to her arms and legs, and she
12 says that all her extremities, both arms
13 and both legs, were numb.

14 Q. And did she say any specific
15 portions of her arms and legs were numb or
16 the entire arm and the entire legs?

17 A. I don't have that specifically
18 written in my record, but from that last
19 statement that she said all her extremities
20 are numb, I would assume all the
21 extremities, but again, that's an
22 assumption. I'm not exactly sure what she
23 said at that time.

24 MR. SACKS: I move to strike
25 anything after the word "assumption."

1 P.L. VARRIALE, M.D.

2 Q. Now, you also, as a component
3 of your examination of Miss Springer, you
4 also reviewed her medical records, correct?

5 A. Correct.

6 Q. And you reviewed medical
7 records from the time of this accident and
8 on?

9 A. Yes.

10 Q. And do you know which medical
11 records you reviewed?

12 A. Multiple medical records.

13 Q. Okay. Did you prepare a report
14 in relation to your examination of
15 Miss Springer?

16 A. Yes.

17 MR. SACKS: Just yes or no.

18 Q. I get to ask the questions.

19 A. Yes.

20 MR. SACKS: This is for trial,
21 so just so we're clear, the report's
22 not in evidence, and if he's going to
23 do anything with it, have it done
24 properly, please.

25 MR. WALTHALL: Duly noted.

1 P.L. VARRIALE, M.D.

2 MR. SACKS: Thank you.

3 Q. In the report that you
4 prepared, did you list the medical records?

5 MR. SACKS: Objection. You're
6 referring to the content of something
7 that's not going to be in evidence.

8 Q. Are the medical records that
9 you reviewed listed in your report?

10 MR. SACKS: Objection, again,
11 you're referring to a document that's
12 not going to be in evidence.

13 MR. WALTHALL: It remains to be
14 seen whether it will be in evidence.
15 You could answer.

16 A. Yes.

17 MR. SACKS: Objection. Have
18 you listed on the pretrial order that
19 it's going to be in evidence?

20 MR. WALTHALL: The report
21 itself was put into the pretrial
22 order.

23 MR. SACKS: And it's not
24 objected to?

25 MR. WALTHALL: No.

1 P.L. VARRIALE, M.D.

2 Q. Doctor, can you explain to us,
3 I want to go to the time when you did the
4 exam of Miss Springer, what did you find
5 when you examined her?

6 A. Well, when I examined her neck,
7 she would only move her neck in five
8 degrees, which is, essentially, moving
9 your, say -- this is flexion. She would
10 only move her neck five degrees, which is,
11 essentially, like that, in flexion.
12 Extension, this is extension, she would
13 move her neck back, again, five degrees.
14 When asked to turn her head to the left,
15 which is this, she would turn to her left
16 five degrees, which is like that. When
17 asked to her turn her head to the right,
18 which is that, she would turn her head five
19 degrees, which is that, to the right
20 (indicating).

21 There was no spasm and no
22 tenderness on palpating or pressing on the
23 neck. There was full strength of all
24 muscle groups; in other words, I tested her
25 biceps, her triceps and the little muscles

1 P.L. VARRIALE, M.D.

2 of the hand. They had full strength. All
3 her reflexes were normal. And when I
4 touched her skin with my hand, that's how I
5 test for sensation, light touch, it's
6 called light touch, when you just take your
7 hand and gently brisk it across the skin,
8 she had normal sensation (indicating).

9 She had a negative Sperling's
10 test, which is a provocative test. What I
11 mean by that is you would tilt the head one
12 way or the other to try to stimulate a
13 nerve that would be irritated, and that was
14 negative; in other words, it was normal.
15 There was no indication that she had any
16 nerve irritation going down her arms.

17 Q. Now, when you said there was no
18 spasm and no palpation, can you explain to
19 us what you found, what you mean when you
20 say there was no spasm and what you did to
21 discern that?

22 MR. WALTHALL: Objection to
23 form.

24 A. I would press on the muscles
25 behind the neck and see if they were

1 P.L. VARRIALE, M.D.

2 supple; in other words, soft, or see if
3 they were tight and tense, and they were
4 soft, there was no tenseness or spasm, we
5 would call it. A spasm muscle is one
6 that's tight and pretty firm.

7 Q. So you physically put your
8 hands on her neck to feel whether or not
9 there was a spasm there?

10 A. Correct.

11 Q. Now, when you say there was no
12 palpation, can you tell us what you did to
13 discern there was no palpation?

14 A. I'm not sure what you mean by
15 that.

16 Q. Well, one of the things you
17 said was there was no palpation and spasm.

18 A. No tenderness.

19 Q. No tenderness, I'm sorry.

20 And how did you discern that
21 there was no tenderness?

22 A. Well, when I pressed on her
23 neck I would ask her if it hurts, and she
24 said no.

25 Q. Thank you.

1 P.L. VARRIALE, M.D.

2 And can you describe to us what
3 you did when you did the physical exam to
4 check for her leg and back, for her lower
5 back?

6 A. For her lower back I would ask
7 her to bend forward; in other words, in a
8 standing position, I would -- it's like
9 bending forward to try to touch your toes.
10 For her, she would only bend 10 degrees,
11 which is, say this is -- I'm standing up,
12 and this is 90 degrees bending, trying to
13 touch your toes, 90 degrees bending
14 forward. I'll show you.

15 Standing up, bending forward to
16 90 degrees is that (indicating). When I
17 asked her to bend, she would bend 10
18 degrees, which is like that (indicating).
19 When asked her to extend her back, which is
20 extension, she wouldn't extend at all.

21 There was no spasm or
22 tenderness to the lower back. There was --
23 when I examine for sensation, which, again,
24 is the light touch, rubbing against the
25 skin very lightly, she said her whole left

1 P.L. VARRIALE, M.D.

2 leg had decreased sensation. There was
3 full strength of all the muscles in the
4 lower extremity.

5 Essentially, I test the
6 quadriceps muscle, which is the front of
7 the thigh, the hamstring muscles, which is
8 the back of the thigh, I test the muscles
9 in the lower leg by asking them to bring
10 their foot up, and I test the back of the
11 lower leg, like the calf, by asking them to
12 point the toe down. And I had my hand
13 there feeling how much pressure that she
14 can put when I test these four muscle
15 groups. And then again the reflexes, which
16 is using the hammer to test if the nerve
17 pathways are functioning properly from the
18 leg and into the back, everything -- those
19 reflexes were normal.

20 Q. Doctor, you also performed a
21 physical examination of Miss Springer's
22 shoulder, correct?

23 A. Yes.

24 Q. Which shoulder did you examine?

25 A. Her right shoulder.

1 P.L. VARRIALE, M.D.

2 Q. And what did you do when you
3 did that exam?

4 A. Well, I asked her to abduct her
5 arm, which is, normal abduction is bringing
6 the arm all the way up, and when I asked
7 her to do that, she could lift her arm like
8 that (indicating).

9 Q. About how many degrees would
10 you quantify?

11 A. About 30 degrees. That's about
12 there (indicating).

13 When asked to externally rotate
14 the arm, normal is about 80, she would only
15 rotate -- I mean she could rotate normally,
16 that's 80 degrees, external rotation, and
17 this is 90 degrees of internal rotation,
18 and she could do that (indicating).
19 Normally.

20 Also I tested for strength of
21 internal and external rotation, and I put
22 my hand here and asked her to push in, I
23 put my hand on the outside, asked her to
24 push out, and she had normal strength. She
25 also had normal strength when I tested the

1 P.L. VARRIALE, M.D.

2 biceps and pushing down, which is testing
3 back here, and she had normal strength
4 there (indicating). And when I touched the
5 shoulder and asked if it hurts, she said
6 no.

7 Q. Doctor, after examining
8 Miss Springer and reviewing her records and
9 taking a history from her, were you able to
10 reach a conclusion, within a reasonable
11 degree of medical certainty, as to her
12 condition?

13 A. Yes. Well, I believe there was
14 significant malingering during the physical
15 examination. What I mean by that is that
16 her physical examination did not correlate
17 with other parts of her physical
18 examination, and after reviewing all of her
19 medical records, again, her physical
20 examination did not correlate with the
21 medical records; therefore, I felt there
22 was significant malingering. We also call
23 it symptom exaggeration.

24 Also, when she exited the room,
25 she said she could not open the doorknob,

1 P.L. VARRIALE, M.D.

2 and someone had to open the doorknob for
3 her, which, I believe is, to me, obvious
4 malingering.

5 Q. And when -- go ahead, I'm
6 sorry.

7 A. The other, based on the fact
8 that I felt that she was malingering, it is
9 difficult to really assess someone's
10 problem, but to my best of my ability, I
11 felt that she had resolved her cervical and
12 lumbar strains, and she had resolved her
13 right shoulder strain.

14 Q. Now, Doctor, with a reasonable
15 degree of medical certainty, and after
16 reviewing Miss Springer's medical records,
17 after performing a physical examination of
18 her, did you determine -- do you have an
19 opinion as to whether or not she required
20 surgery for any injury she sustained in
21 this accident?

22 A. No.

23 Q. And when you say "no," why,
24 what do you base that on?

25 A. Again, I believe her diagnosis,

1 P.L. VARRIALE, M.D.

2 to the best of my ability, is a resolved
3 cervical strain, a resolved lumbosacral
4 strain and a revolved strain to her right
5 shoulder. And neither one of those
6 diagnoses requires surgery.

7 Q. In reviewing her medical
8 records, did you have an opportunity to
9 review the records from Dr. Aric
10 Hausknecht?

11 MR. SACKS: Objection.
12 Objection to anything that's not
13 specifically set forth in his report.
14 I'm going to ask for a ruling. I'm
15 not going to permit him to go into
16 things that are not covered in his
17 report.

18 Is Dr. Hausknecht's records
19 something he reviewed and listed in
20 his report?

21 MR. WALTHALL: Yes.

22 MR. SACKS: Could you just,
23 under the review of -- just maybe go
24 off the record for a moment.

25 THE VIDEOGRAPHER: We are off

1 P.L. VARRIALE, M.D.

2 the record at 1:09 p.m.

3 (Whereupon, an off-the-record
4 discussion was held.)

5 (Whereupon, Dr. Varriale's
6 report was marked as Defendants'
7 Exhibit A for identification as of
8 this date by the Reporter.)

9 THE VIDEOGRAPHER: On the
10 record at 11:17 a.m.

11 MR. SACKS: I'm objecting to
12 the question that was just posed on
13 the grounds that the doctor's Rule 26
14 report makes no reference to
15 reviewing any records of a
16 Dr. Hausknecht. And I'm reserving
17 the right to assert that in front of
18 the judge, but the examination of the
19 witness may continue.

20 A. I did examine the report from
21 Dr. Hausknecht.

22 Q. Can you tell us what date that
23 was?

24 A. June 9, 2011.

25 Q. And was there anything that you

1 P.L. VARRIALE, M.D.

2 observed about the examination that was
3 conducted by Dr. Hausknecht that was
4 different from the examination that you
5 performed on Miss Springer on June 7th of
6 2011?

7 A. Well, she had significantly
8 more motion when Dr. Hausknecht examined
9 her two days later. She was able to flex
10 her neck fully to 60 degrees, extend her
11 neck fully to 60 degrees, she was able to
12 rotate her neck to approximately 60 degrees
13 in both directions, normal is 80 degrees,
14 and on her lower back, when she was asked
15 to bend forward, she could bend forward to
16 70 degrees, again, normal bending is
17 90 degrees, and she could flex to
18 70 degrees (indicating).

19 Q. And for you how much did she
20 flex?

21 A. Ten degrees.

22 Q. Ten degrees. And was there
23 anything else that you noticed that
24 contrasted with the physical examination
25 that you conducted on June 7th of 2011 and

1 P.L. VARRIALE, M.D.

2 Dr. Hausknecht's as recorded on his report
3 dated June 9th of 2011?

4 A. I mean he examined all her
5 extremities for sensation, and he said all
6 the sensation was normal. When I examined
7 her, she said her whole left leg had
8 decreased sensation.

9 Q. Doctor, you mentioned in your
10 report, you indicate that the plaintiff,
11 that one of your diagnoses for the
12 plaintiff is overt malingering, correct?

13 A. Correct.

14 Q. Does the information you
15 gleaned from Dr. Hausknecht's report and
16 the contrast between the two examinations
17 inform your opinion?

18 MR. SACKS: Objection to the
19 form, the leading. And I ask you to
20 rephrase it.

21 MR. WALTHALL: I'll rephrase
22 it.

23 Q. Doctor, you diagnosed the
24 plaintiff as having overt malingering,
25 correct?

1 P.L. VARRIALE, M.D.

2 A. Yes.

3 Q. Does your review of her medical
4 records and the exams and the reports of
5 the exams contained therein inform your
6 opinion that she was overtly malingering?

7 MR. SACKS: Objection to the
8 form and the leading.

9 Q. Do you base part of your
10 opinion that she was malingering on what
11 you've gleaned from the reports?

12 MR. SACKS: Objection. Again,
13 nothing's in the record about what he
14 reviewed.

15 MR. WALTHALL: Other than
16 Dr. Hausknecht's record.

17 MR. SACKS: But you asked
18 records, plural.

19 A. Essentially, when I made that
20 diagnosis it was on June 7th of 2011. When
21 I read this report, which is, obviously,
22 two days later, it reinforced my opinion
23 that she is overtly malingering.

24 MR. SACKS: Move to strike.

25 Q. And what about it reinforces

1 P.L. VARRIALE, M.D.

2 your opinion from June 7th of 2011?

3 A. Because when I examined her on
4 June 7th of 2011, she had very little
5 motion of her neck and lower back, and then
6 she was examined two days later and had
7 significantly more motion.

8 Q. Doctor, at the time that you
9 examined Miss Springer, do you know whether
10 or not she had received any epidural
11 injections?

12 A. As far as I know, I do not
13 believe she did.

14 Q. Doctor, throughout your
15 examination you've been looking at some
16 papers on your desk, correct?

17 A. Correct.

18 Q. And was one of those things a
19 report that's been marked as Defendants'
20 Exhibit A for identification today?

21 A. Yes.

22 Q. Okay.

23 MR. SACKS: May I see it,
24 please?

25 MR. WALTHALL: Sure (handing).

1 P.L. VARRIALE, M.D.

2 Q. And can you tell us what
3 Defendants' Exhibit A is?

4 A. It's my report that was
5 generated from my examination of this
6 claimant on June 7, 2011.

7 Q. Does it also contain your
8 impression of your review of the medical
9 records of Miss Springer?

10 A. It has review of multiple
11 medical records, yes.

12 Q. Is that something that you do
13 in your normal course of business?

14 MR. SACKS: Objection.

15 Q. When you conduct an
16 examination?

17 MR. SACKS: Objection.

18 A. Yes.

19 Q. And you examine someone for
20 litigation, and you prepare a report in
21 your normal course of business?

22 MR. SACKS: Objection.

23 A. Correct.

24 MR. WALTHALL: At this time I'd
25 like to offer Defendants' Exhibit A

1 P.L. VARRIALE, M.D.

2 into evidence.

3 MR. SACKS: Over my objection.

4 You could do whatever you'd like with
5 it.

6 Q. Okay. Doctor, as we sit here
7 today, do you have a specific recollection
8 of examining Miss Springer?

9 A. No.

10 Q. But you were using your report
11 to refresh your recollection?

12 MR. SACKS: Objection to the
13 leading.

14 MR. WALTHALL: Withdrawn.

15 Q. Did you use your report to
16 refresh your recollection?

17 A. Yes.

18 Q. Are you familiar with a
19 neurologist by the name of Ashok Anant,
20 A-N-A-N-T?

21 A. No.

22 Q. Have you ever met Dr. Anant?

23 A. No.

24 Q. Did you ever discuss
25 Miss Springer with Dr. Anant?

1 P.L. VARRIALE, M.D.

2 A. No.

3 Q. At any time, did you ever make
4 a call to Dr. Anant, make a call to his
5 office, communicate in any way, e-mail,
6 text, fax with Dr. Anant about
7 Miss Springer?

8 A. No.

9 Q. Doctor, I'm just going to ask
10 you, with a reasonable degree of medical
11 certainty, can you repeat the diagnosis
12 that you offered earlier that you reached
13 after examining Mrs. Springer and examining
14 her medical records?

15 MR. SACKS: Objection,
16 repetition, objection to the form.
17 You can answer.

18 A. Overt malingering, resolved
19 cervical and lumbar spine, resolved strain
20 to the right shoulder.

21 Q. Doctor, with a reasonable
22 degree of medical certainty, as a result of
23 the injuries she sustained in the motor
24 vehicle accident that is the basis of this
25 case, is it your opinion that Miss Springer

1 P.L. VARRIALE, M.D.

2 needs surgery to any part of her body?

3 MR. SACKS: Note my objection

4 to repetition.

5 A. No, she does not need surgery

6 to her neck, back or right shoulder.

7 MR. WALTHALL: Thank you. I

8 have nothing --

9 THE WITNESS: You're welcome.

10 MR. SACKS: May we go off the

11 record.

12 THE VIDEOGRAPHER: Sure. Off

13 the record at 1:25 p.m.

14 (Whereupon, an off-the-record

15 discussion was held.)

16 (Whereupon, Dr. Varriale's

17 report included in Rule 26 exchange

18 was marked as Plaintiff's Exhibit 1

19 for identification as of this date by

20 the Reporter.)

21 THE VIDEOGRAPHER: We're on the

22 record at 1:33.

23 BY MR. WALTHALL:

24 Q. Dr. Varriale, as part of your

25 examination of the plaintiff's medical

1 P.L. VARRIALE, M.D.

2 records, did you review any MRI films?

3 A. Yes.

4 Q. And which films did you review
5 or what parts of the body?

6 A. The MRI of the lumbar spine
7 dated 6-8, 2010, an MRI of the cervical
8 spine dated 7-17, 2010, and an MRI of the
9 shoulder, I don't have the date in front of
10 me.

11 Q. Did you use those MRI films,
12 your review of those MRI films, to reach
13 your --

14 MR. SACKS: Objection to
15 leading.

16 Q. -- your ultimate opinion in
17 this case?

18 MR. SACKS: Objection. Stated
19 the basis of his opinion. You said
20 you had one more question.

21 Object to the repetition.

22 Q. Was your review of the MRI
23 films part of your review of the records
24 that led to your ultimate opinion in this
25 case?

1 P.L. VARRIALE, M.D.

2 MR. SACKS: Objection to the
3 leading.

4 A. Obviously, it's not as per my
5 opinion of June 7, 2011, nor my opinion of
6 July 21st of 2011, but as I sit here today,
7 it does help me solidify my diagnosis, yes.

8 MR. WALTHALL: Okay. Thank
9 you, Doctor.

10 MR. SACKS: Move to strike the
11 answer as being beyond the Rule 26
12 exchange.

13 These are the little folders
14 that these little guys came in
15 (indicating)?

16 THE WITNESS: Yes. There are a
17 couple things in there I didn't
18 review, like -- it was an ultrasound
19 of the belly and another one was
20 something else that was not in my
21 field.

22 MR. SACKS: We all set?

23 THE VIDEOGRAPHER: Yes.

24 EXAMINATION BY

25 MR. SACKS:

1 P.L. VARRIALE, M.D.

2 Q. Hi, Dr. Varriale. My name is
3 Bradley Sacks.

4 A. Hello.

5 Q. I'm here today on behalf of the
6 plaintiff in this lawsuit, and I want to go
7 over a few things that you may have
8 mentioned on your direct examination in the
9 case.

10 A. Okay.

11 Q. First you indicated that you
12 were looking at a folder in front of you,
13 sort of like a baby blue with a bunch of
14 papers in it.

15 A. Correct.

16 Q. Now, you indicated that the
17 report that you prepared dated June 7, 2011
18 was prepared in the ordinary course of your
19 business as a orthopedic surgeon; is that
20 correct?

21 A. Correct.

22 Q. So as an orthopedic surgeon,
23 part of your job is to examine litigants
24 and render reports to third-party
25 consulting companies; is that correct?

1 P.L. VARRIALE, M.D.

2 A. Correct.

3 MR. WALTHALL: Note my
4 objection.

5 Q. And as part of your board
6 certification with the American Board of
7 Orthopedic Surgery, did you have training
8 in the preparation of medical reports for
9 litigants in third-party actions?

10 A. Not in my orthopedic training
11 as an orthopedic resident, no.

12 Q. And the company that you
13 performed these reviews for, what's the
14 name of the company?

15 A. There are several.

16 Q. What's the one that contacted
17 you in this particular case?

18 A. I don't really know.

19 Q. UMC Medical Consultants?

20 A. Yes, that could be the one.

21 Q. About how often do you do
22 medical evaluations for UMC Medical
23 Consultants?

24 A. About three cases a week.

25 Q. And that's just for UMC

1 P.L. VARRIALE, M.D.

2 Consultants?

3 A. Correct.

4 Q. Since we're talking about
5 things that you do per week, you are in the
6 active practice of orthopedics?

7 A. Correct.

8 Q. What days a week do you have
9 office hours?

10 A. Mondays, Wednesdays and
11 Thursdays.

12 Q. And on the Mondays, Wednesdays
13 and Thursdays, do you also conduct
14 evaluations of litigants?

15 A. Yes.

16 Q. Are those done on Mondays,
17 Wednesdays and Thursdays?

18 A. Correct.

19 Q. And Tuesday, so that would
20 leave Tuesday and Friday, do you do surgery
21 on those days?

22 A. On Friday, sometimes on
23 Tuesday.

24 Q. I'm sorry, when did you examine
25 Miss Springer?

1 P.L. VARRIALE, M.D.

2 A. I believe it was on June 7th,
3 and every once in a while on a Tuesday I'll
4 go into New York City and do independent
5 medical examinations.

6 Q. I'll just move to strike your
7 answer. Try to follow along, and we'll get
8 to the same place, okay.

9 I just want to know, June 7th
10 is the day you performed your examination,
11 correct?

12 A. Correct.

13 Q. And back on June 7th of 2011,
14 you had offices for the practice of
15 orthopedic surgery here where we are today
16 on Franklin Avenue, correct?

17 A. Correct.

18 Q. And you had offices for the
19 practice of orthopedics someplace else as
20 well, correct?

21 A. Correct.

22 Q. And that was somewhere in
23 Rockville Centre?

24 A. Yes.

25 Q. And you're part of a group

1 P.L. VARRIALE, M.D.

2 called Orthopedic --

3 A. Excellence.

4 Q. -- Excellence of Long Island,
5 correct?

6 A. Correct.

7 Q. And that's through your
8 affiliation with the physicians who work at
9 Mercy Hospital, correct?

10 A. Not really sure what you mean
11 by that.

12 Q. Well, you're on the staff of
13 Mercy Hospital, correct?

14 A. Correct.

15 Q. You're part of the sports
16 medicine unit of the department of
17 orthopedics, correct?

18 A. Yes.

19 Q. And the physicians who form the
20 core of Orthopedic Excellence of Long
21 Island are all with you or practice with
22 you at Mercy Hospital, correct?

23 A. That's one of the hospitals,
24 yes.

25 Q. In the offices in Rockville

1 P.L. VARRIALE, M.D.

2 Centre and the offices here in Franklin
3 Avenue, you have equipment to perform
4 actual treatment of patients, correct?

5 A. Yes.

6 Q. And if you want to measure the
7 range of motion that a patient might
8 exhibit, you have instruments here in
9 Franklin Avenue that you could use,
10 correct?

11 A. If I wanted to.

12 Q. And would there be something
13 called a goniometer or inclinometer?

14 A. Correct.

15 Q. And on June 7th of 2011, when
16 you examined Miss Springer, you were at 19,
17 was it West 34th Street?

18 A. Correct.

19 Q. Now, 19 West 34th Street is a
20 commercial building, correct?

21 A. Correct.

22 Q. And there's a clothing store,
23 is it Banana Republic --

24 A. Next door, correct.

25 Q. -- you enter next door? And

1 P.L. VARRIALE, M.D.

2 that's a building where you just use a
3 particular office when you're going to see
4 patients involved in lawsuits, correct?

5 MR. WALTHALL: Note my
6 objection.

7 A. They're not all involved in
8 lawsuits, no.

9 Q. So you actually have as one of
10 your office locations where you see and
11 treat patients as 19 West 34th Street; is
12 that correct?

13 A. No, I don't treat patients
14 there.

15 Q. So the offices of 19 West 34th
16 Street have nothing to do with Orthopedic
17 Excellence of Long Island, correct?

18 A. Correct.

19 Q. And in fact, you just borrow a
20 doctor's office to conduct an examination,
21 correct?

22 A. Correct.

23 Q. Do you know whether that doctor
24 was a psychologist or a dentist or do you
25 know what kind of specialty office it is in

1 P.L. VARRIALE, M.D.

2 suite 1200 in that building?

3 A. I believe it's mainly a
4 psychologist's office, but there are
5 several other specialties also working
6 there, like a chiropractor and a
7 neurologist.

8 Q. Now, do you know whose office
9 you borrowed, did you borrow
10 the psychologist's office or the
11 chiropractor's office or the neurologist's
12 office to do the examination?

13 A. It's an office that has
14 multiple offices in it, and there is no
15 particular specialty that works in any
16 particular office as far as I know.

17 Q. Okay. Now, you've testified a
18 number of times over the years in lawsuits,
19 correct?

20 A. Correct.

21 Q. And every now and again you're
22 called upon to testify in cases involving
23 patients of your own who've been injured
24 either in an accident or due to illness
25 and, if necessary, you'll go to court and

1 P.L. VARRIALE, M.D.

2 testify on their behalf, correct?

3 A. Yes.

4 Q. As far as testifying in cases
5 involving people that you examine solely
6 for the purposes of a lawsuit, would it be
7 fair to say that at least 90 percent of the
8 time you testify for a defendant?

9 A. Correct.

10 Q. And how much did you charge for
11 your initial examination of Miss Springer,
12 preparation of the report of June 7th and
13 review of the records that you had
14 available to you that you wrote about in
15 that report?

16 A. I'm not exactly sure. It could
17 be about \$400.

18 Q. So, and we're here today in
19 your offices, so if you wanted to, is there
20 a record that you could consult or is it
21 can you tell me why you wouldn't be able to
22 figure that out while we're here?

23 A. Well, it's not here in the
24 chart, and I don't really know how much I
25 got paid for it.

1 P.L. VARRIALE, M.D.

2 Q. Well, where would a record be
3 kept of how much you got paid for it be?

4 MR. WALTHALL: Just note my
5 objection.

6 A. I'm not sure where they kept
7 it. Probably with my secretary who works
8 with me during these examinations.

9 Q. And is she located in the
10 Franklin Avenue office, the Rockville
11 Centre office or do you park her at the 19
12 West 34th Street location?

13 A. No, she works -- when I do my
14 independent medical examinations, she's
15 with me.

16 Q. Now, you used the word
17 "independent," and I'd just like to move
18 to strike that. Whether you're independent
19 or not would be a question of fact for
20 someone else other than us.

21 MR. WALTHALL: Objection to any
22 movement to strike any portion of the
23 testimony.

24 Q. I've asked that we mark as
25 Exhibit 1 for today's examination a report

1 P.L. VARRIALE, M.D.

2 dated June 7th of 2011. Would you take a
3 look at it.

4 A. Okay.

5 Q. Turn the pages, see if you
6 recognize it.

7 A. Okay.

8 Q. Is that your signature?

9 A. Yes.

10 Q. And when you prepared this
11 report, you knew it was in connection with
12 a lawsuit, correct?

13 A. I'm not sure if I knew that at
14 that time, maybe I did.

15 Q. Well, you addressed it to the
16 law office of Hoey, King, Toker & Epstein,
17 so did you think they were a group of
18 practicing physicians?

19 A. No.

20 MR. WALTHALL: Objection.

21 Q. Did you get hired by UMC
22 Medical Consultants to perform the
23 evaluation?

24 A. Correct.

25 Q. And UMC Medical Consultants

1 P.L. VARRIALE, M.D.

2 primarily does evaluations of litigants in
3 lawsuits, correct?

4 A. Usually.

5 Q. So you had an idea that it
6 involved a lawsuit?

7 A. Yeah, I had a good inkling that
8 it could be.

9 Q. And did you know that the firm
10 of Hoey, King, Toker & Epstein said that
11 they paid you \$715 for your IME report,
12 does that refresh your recollection as to
13 how much you were paid in connection with
14 your examination of Miss Springer, review
15 of the records they made available to you
16 in preparation of the report?

17 A. No.

18 Q. Now, is it fair to say that you
19 get paid \$10,500 for your testimony to
20 appear in court?

21 A. Yes.

22 MR. WALTHALL: Objection.

23 Q. Are you being paid \$10,500 for
24 your appearance here today?

25 A. I believe so.

1 P.L. VARRIALE, M.D.

2 Q. Did you utilize any instruments
3 at all during, other the reflex hammer that
4 we made some discussion of earlier, during
5 your examination of Miss Springer?

6 A. No.

7 Q. Did you ask Miss Springer to
8 disrobe?

9 A. I don't recall.

10 Q. Well, did you have a usual
11 practice when doing litigation-based
12 examinations at 19 West 34th Street to have
13 the patients disrobe?

14 A. It's not usual and customary.
15 If I need for the patient to disrobe, I
16 make her disrobe.

17 Q. And you have no note one way or
18 the other whether you did or not, correct?

19 A. Correct.

20 Q. Do you know how she was dressed
21 that day, what type of shirt she was
22 wearing, what kind of pants she was
23 wearing?

24 A. No.

25 Q. Did you do your feeling for

1 P.L. VARRIALE, M.D.

2 points of tenderness through whatever shirt
3 she was wearing that day?

4 A. That's not usually my practice.

5 Q. So did you reach your hand
6 inside her shirt in order to perform an
7 evaluation for tenderness or did you limit
8 your evaluation to certain specific areas
9 of her body that wouldn't be covered by
10 clothing?

11 MR. WALTHALL: Note my
12 objection. That's a compound
13 question. You want to break it up.

14 MR. SACKS: Sure.

15 Q. Did you limit your examination
16 for tenderness to parts of Miss Springer's
17 body that were not covered by clothing?

18 A. No.

19 Q. So then you would have asked
20 her to remove her shirt?

21 A. Not necessarily --

22 MR. WALTHALL: Objection, asked
23 and answered.

24 A. -- but --

25 Q. When you examined for

1 P.L. VARRIALE, M.D.

2 tenderness, did you examine her entire
3 back?

4 A. I'm not sure what you mean by
5 that.

6 Q. Well --

7 A. Touched every portion of her
8 back you mean?

9 Q. Well, her back would run from
10 the, we'll call her neck the cervical
11 spine, okay, so the rest of her back would
12 be the, all the vertebrae from after the
13 cervical vertebrae down to her sacral
14 vertebrae, right?

15 A. Correct.

16 MR. WALTHALL: Note my
17 objection. I don't know whether he's
18 offering testimony or offering an
19 opinion. Just note my objection.

20 MR. SACKS: Whether I'm
21 offering an opinion or testimony?

22 MR. WALTHALL: Yes. You were
23 just reciting to him, this is the
24 part of the back, instead of just
25 asking him, what part of the back did

1 P.L. VARRIALE, M.D.

2 you touch.

3 MR. SACKS: This is

4 cross-examination.

5 MR. WALTHALL: I understand

6 that.

7 Q. Now, coming back to your work

8 involved with litigation, so you have

9 office hours those three days a week that

10 you discussed, and sometimes on Tuesdays,

11 and you would also do some in New York,

12 correct?

13 A. Correct.

14 Q. I should say in New York, in

15 Manhattan?

16 A. Correct.

17 Q. Now, approximately how much

18 patients per Monday, Wednesday and Thursday

19 office session would you see that were

20 involved in litigation that you were

21 examining just for the purposes of a, what

22 you call a medical examination?

23 A. I'm sorry, you said litigation,

24 and then you said medical examination.

25 Which one do you mean?

1 P.L. VARRIALE, M.D.

2 Q. I'm trying to use your words.

3 Did you perform a medical
4 examination on Miss Springer?

5 A. It's called a medical
6 examination, yes.

7 Q. And you did it for the purposes
8 of litigation, correct?

9 MR. WALTHALL: Just note my
10 objection. Asked and answered.

11 A. Like I said, at that time, I
12 wasn't a hundred percent sure if this was
13 litigation, but most likely was.

14 Q. All right. Well, let's follow
15 up on that for a second.

16 The report that was exchanged
17 in the Rule 26 information that was
18 provided by Hoey, King, I forget all the
19 names --

20 MR. WALTHALL: Just say Hoey,
21 King.

22 Q. -- Hoey, King, Epstein,
23 Prezioso & Marquez indicated that you made
24 this report based upon the section 13-a of
25 the Workers' Compensation Law. Do you also

1 P.L. VARRIALE, M.D.

2 do examinations for Workers' Compensation
3 Law?

4 A. I'm not sure what you mean by
5 that.

6 Q. Well, I'm going to show you
7 what's on page three of your report dated
8 June 7th that you indicated you agreed with
9 your signature, and do you see
10 the paragraph under impression and
11 diagnosis, where you talk about how you did
12 this examination consistent with the
13 Workers' Compensation Law section 13-a?

14 A. Not really sure what that
15 means.

16 Q. So you have a practice of
17 putting into your reports information that
18 you're not even sure what it means; is that
19 correct?

20 A. Well, that particular line, I
21 don't know what that means.

22 Q. Well, when you say not just
23 that particular line, that indicates that
24 you've done a certain type of examination,
25 and earlier, you just indicated you weren't

1 P.L. VARRIALE, M.D.

2 sure if this was for litigation or not, so
3 it's possible, then, on that day you
4 thought you were doing a Workers' Comp
5 exam?

6 A. Possible.

7 Q. Okay. And then can I see the
8 report you marked as Exhibit A?

9 A. (Hanging).

10 Q. Now, there are two reports that
11 are both dated June 7, 2011, can you agree
12 with that, one that's marked Exhibit A and
13 one that's marked Exhibit 1, correct?

14 A. Correct.

15 Q. Do you always make two
16 different reports for an evaluation on the
17 same day?

18 A. No.

19 Q. And in this particular case,
20 since you were retained by or retained
21 through UMC Medical Consultants, would it
22 be fair to say that the report was prepared
23 by the UMC Medical Consultant transcription
24 department or was it done here in your own
25 offices?

1 P.L. VARRIALE, M.D.

2 A. It was done by a typist that I
3 used.

4 Q. And is that typist, do you use
5 one or more than one typist for this
6 purpose?

7 A. Let me just, I'm sorry, let me
8 go back to that last question.

9 Sometimes it's my typist and
10 sometimes it's their typist.

11 Q. Now, do you know whether in
12 this particular case the reports were
13 actually prepared at the UMC Medical
14 Consultant facilities or not, do you know?

15 A. No.

16 Q. Is there any way to figure that
17 out?

18 A. Sometimes in the, on the bottom
19 of the report it said who typed it.

20 Q. Well, this one has PLV, which
21 is --

22 MR. WALTHALL: Where are you
23 referring to?

24 MR. SACKS: The bottom of the
25 report marked Exhibit 1 I'll start.

1 P.L. VARRIALE, M.D.

2 Q. This one says PLV, which would
3 be referring to you?

4 A. Right.

5 Q. And then slash DN --

6 A. That's my typist.

7 Q. -- and then slash JH.

8 Who's JH?

9 A. My other typist.

10 Q. Okay. So one of your two
11 typists prepared the report of June 7, 2011
12 that we marked Exhibit 1?

13 A. Correct.

14 Q. And the report that's dated
15 June 7, 2011 that we marked as Exhibit A
16 was also then prepared by DN, JH and JH?

17 A. Yes.

18 Q. Now, and as you sit here today,
19 you don't have a recollection of dictating
20 two separate reports on that day, correct?

21 A. Correct.

22 Q. Would it be also fair to say
23 that this report dated June 7, 2011, that
24 we've marked Exhibit A, contains reference
25 to many more records as records reviewed

1 P.L. VARRIALE, M.D.

2 than the report that's marked as Exhibit 1
3 of today's date that's also dated June 7th;
4 is that fair?

5 A. Yes.

6 Q. Now, can you tell me, please,
7 when you reviewed the records that are
8 indicated in your report of June 7th that's
9 marked as Exhibit 1 for today's date, do
10 you know when you got those records?

11 A. I believe they were before or
12 around -- before I dictated the report.

13 Q. Well, did you dictate the
14 report on the same day or some other day
15 than the date of the date on the report?

16 A. Sometimes it's that day,
17 sometimes it's the next day.

18 Q. I understand that, but I'm
19 asking about in this case, can you tell me?

20 A. I don't remember.

21 Q. And again, is there anything in
22 your folder here or that you have someplace
23 else that you could use to refresh your
24 recollection?

25 A. There's nothing in my records.

1 P.L. VARRIALE, M.D.

2 Q. Now, based upon a review of
3 Exhibit 1 for today's date, we'll call it a
4 report dated June 7th, this does not
5 indicate that you reviewed any films at
6 all, correct?

7 A. Correct.

8 Q. Now, in fact, would it be fair
9 to say that whatever opinion is expressed
10 in this report dated exhibit -- I'm sorry,
11 dated June 7th, marked as Exhibit 1,
12 wouldn't rely upon any records or films or
13 information other than what's set forth in
14 the review of medical records indicated in
15 the report, correct?

16 A. Correct.

17 Q. So then would it be fair to say
18 that when you dictated this report dated
19 June 7, 2011, that we've marked as
20 Exhibit 1, which was exchanged as your Rule
21 26 information -- let me ask you this: Do
22 you know what Rule 26 information means in
23 a federal case?

24 A. No.

25 Q. Did you testify in a federal

1 P.L. VARRIALE, M.D.

2 case, Eastern District of New York, about
3 two years ago?

4 A. I don't remember.

5 Q. Did you help prepare a list of
6 cases that you testified in over the last
7 four years?

8 A. My secretary did, yes.

9 Q. Did you review it?

10 A. No.

11 Q. Did you try to do anything to
12 ascertain whether it was an accurate list
13 of the cases that you actually testified in
14 over the last four years?

15 A. She had all the records, and
16 I -- I told her to get the information that
17 was required for the case, and she got the
18 information. I would not remember which
19 cases I testified on.

20 Q. So if a case is left out that
21 you actually testified in, that would be
22 her fault then?

23 A. I -- wouldn't necessarily be
24 her fault, she just didn't have record that
25 I testified on that.

1 P.L. VARRIALE, M.D.

2 Q. Well, you understand that in a
3 federal case where this type of information
4 has to be exchanged, basically, you're
5 warranting that the information going out
6 under your name is accurate; you understand
7 that, right?

8 MR. WALTHALL: Just note my
9 objection. You're making a
10 statement, and then asking him --
11 then asking a question. It's pretty
12 much one or the other, you can't just
13 make the statement. You can ask him
14 if he knows about Rule 26, what it
15 means, what he's done, but you're
16 making a statement of fact, and
17 that's just improper.

18 Q. When were you asked for this
19 list of cases?

20 A. I believe about a week ago.

21 Q. And were you told that you had
22 to prepare and provide that list within
23 24 hours?

24 A. I don't recall the time frame.

25 Q. It was a short time frame,

1 P.L. VARRIALE, M.D.

2 though, wasn't it?

3 A. Yes.

4 Q. And did you know that back in
5 December of 2011, the attorneys who were
6 working with you on this case indicated
7 that they were going to obtain a list of
8 your cases back at that time from you?

9 A. I don't remember.

10 Q. Did you review records before
11 you examined Miss Springer on June 7th,
12 after you examined or while you were
13 examining her?

14 MR. WALTHALL: Just note my
15 objection, asked and answered.

16 Q. And I'm asking about the
17 records you reviewed in the document we've
18 marked Exhibit 1, which was exchanged as
19 your Rule 26 information.

20 MR. WALTHALL: Just asking
21 specifically about those records or
22 any records he reviewed?

23 MR. SACKS: See, under Rule --
24 I'm asking him about the Rule 26
25 expert exchange in this case, which

1 P.L. VARRIALE, M.D.

2 is a report dated June 7th.

3 Q. Did you review the records
4 indicated in here before, during, after, or
5 something else relative to the examination
6 of Miss Springer on June 7th?

7 MR. WALTHALL: Objection, asked
8 and answered.

9 But you can answer.

10 A. I don't remember that.

11 Q. So do you have any idea when
12 these x-rays that you indicated at some
13 point you reviewed, did you ever prepare a
14 report in which you discussed your opinions
15 about what was in any of the MRI studies or
16 imaging studies that you indicated at some
17 point in time you reviewed?

18 A. No.

19 Q. So you have never reduced to
20 writing any report that contains the
21 substance of the facts or opinions with
22 respect to the review of specific imaging
23 studies, correct?

24 A. Correct.

25 MR. WALTHALL: Just note my

1 P.L. VARRIALE, M.D.

2 objection.

3 Q. Did you ever issue a report
4 that contained the substance of your
5 opinions with respect to any records that
6 are not referred to in what we've marked as
7 Exhibit 1?

8 A. Yes.

9 Q. And when did you do that?

10 A. July 21, 2011.

11 Q. And can you just give us some
12 idea how that July 21, 2011 report came
13 about?

14 A. Most likely what happened is
15 that they sent further medical records on
16 this case, asked me to look at the records,
17 and asked me if it changed my opinion, and
18 I gave the -- I looked at the records and
19 wrote -- and made the report.

20 Q. So basically, would it be fair
21 to say that having reviewed all those
22 records nothing changed your opinion,
23 correct?

24 A. Correct.

25 Q. So anything that was in those

1 P.L. VARRIALE, M.D.

2 subsequent records was not relevant to
3 formulating any of the opinions that are
4 set forth in Exhibit 1 dated June 7th,
5 correct?

6 MR. WALTHALL: Objection. It's
7 asking him to make a call on what's
8 relevant and what's not.

9 MR. SACKS: No, no. I think he
10 can determine what's relevant to his
11 own determinations, and I'm asking
12 him --

13 Q. So none of them formed the
14 facts or the substance in the opinions set
15 forth in Exhibit 1, correct?

16 A. Correct.

17 Q. Do you know a doctor named
18 Sebastian Lattuga?

19 A. Yes.

20 Q. And he's a board certified
21 orthopedic surgeon?

22 A. I'm not sure if he's board
23 certified.

24 Q. He practices here in Nassau
25 County?

1 P.L. VARRIALE, M.D.

2 A. Correct.

3 Q. And he's on the staff of other
4 hospitals that have departments of
5 orthopedics, correct?

6 MR. WALTHALL: Just note my
7 objection.

8 A. Yes.

9 Q. And you see him from time to
10 time at the Nassau County Orthopedics
11 Society?

12 A. I haven't seen him for many
13 years.

14 Q. Do you know he has a good
15 reputation as an orthopedist?

16 MR. WALTHALL: Objection.

17 A. No comment.

18 MR. WALTHALL: Objection.

19 Q. If he went to medical school,
20 did a residency and got board certified,
21 then he has the same credentials as you,
22 correct?

23 MR. WALTHALL: Objection.

24 A. I'm not sure what you mean by
25 that.

1 P.L. VARRIALE, M.D.

2 Q. I'm trying to determine -- you
3 were asked questions earlier on about your
4 background and training, and you indicated
5 you went to medical school, that you did a
6 residency, and that you passed a board
7 certification exam.

8 A. Correct.

9 Q. So if another doctor goes to
10 medical school, a residency at a good
11 accredited institution and passes the oral
12 and written examination by the American
13 Board of Orthopedic Surgeons, they have the
14 same credential as you do in terms of their
15 background and training?

16 A. Right, if they've done all
17 that, they have the same credentials as a
18 board certified orthopedic surgeon.

19 Q. And when you formulated your
20 opinions on June 7th, you have not yet
21 reviewed, or had not yet reviewed, any
22 reports of Dr. Lattuga, correct?

23 A. If that's what it says there,
24 and I have -- and I did not.

25 Q. Now, do you recognize

1 P.L. VARRIALE, M.D.

2 acupuncture as a form of therapy?

3 MR. WALTHALL: Just objection.

4 Does he recognize it?

5 MR. SACKS: Yes, I'm asking

6 whether he recognizes, that was

7 exactly my question.

8 A. Is it a form of therapy?

9 Q. Do you recognize it as a form
10 of therapy?

11 A. I recognize that it exists as a
12 therapy, yes.

13 Q. And have you had any training
14 in it?

15 A. No.

16 Q. And do you know whether or not
17 in this particular case Miss Springer was
18 treated by acupuncture specialists who
19 were, in fact, also M.D.s?

20 A. If the record states that, if
21 they're in the record, then she was.

22 Q. Okay. Is there any other
23 records that you reviewed in connection
24 with your report of June 7th that would
25 have included the therapy she received from

1 P.L. VARRIALE, M.D.

2 acupuncture specialists?

3 A. This says physical therapy

4 notes from Allstate Physical Therapy.

5 Q. So is physical therapy and

6 acupuncture the same to you?

7 A. No.

8 THE VIDEOGRAPHER: Can we

9 change tapes?

10 MR. SACKS: Sure.

11 THE VIDEOGRAPHER: Off the

12 record at 2:03 p.m.

13 (Whereupon, an off-the-record

14 discussion was held.)

15 THE VIDEOGRAPHER: This is tape

16 two. We're on the record at 2:08.

17 BY MR. SACKS:

18 Q. Now, I think you indicated that

19 you agreed that Miss Springer suffered, I

20 think you used the word "strain" of the

21 cervical spine, lumbar spine and the right

22 shoulder, correct?

23 A. Yes.

24 Q. And you indicated you reviewed

25 some reports taken of her lumbosacral and

1 P.L. VARRIALE, M.D.

2 cervical spine on May 20, 2010 in your
3 report dated June 7th that was marked as
4 Exhibit 1.

5 A. Okay.

6 Q. Now, those were taken at the
7 emergency department of Syosset Hospital,
8 correct?

9 A. Yes.

10 Q. So at that time, in your
11 opinion, they were correct in diagnosing
12 that she suffered a cervical sprain, lumbar
13 sprain and some injury to her shoulder?

14 A. I'm not sure what they
15 diagnosed.

16 Q. So you didn't review any
17 records from the initial emergency room
18 visit either?

19 A. I have a page, but you could
20 hardly read it.

21 Q. So just by way of, since you,
22 if I'm not mistaken, you work about
23 45 weeks a year doing examinations?

24 MR. WALTHALL: Just note my
25 objection, but --

1 P.L. VARRIALE, M.D.

2 A. Okay, thereabout.

3 Q. And you see patients including
4 litigation examinations three days a week?

5 A. Yes.

6 Q. And you do about five
7 examinations a day for litigation of those
8 three days?

9 A. Okay, yes.

10 Q. So it's -- that's about 15 a
11 week times 45, I'm not so good with math,
12 but you do quite a few of those per year,
13 then?

14 A. Yes.

15 Q. Somewhere around a hundred a
16 year at least, correct?

17 A. For litigation.

18 Q. Just talking about litigation.

19 A. Yeah.

20 Q. So you know that if you need to
21 see records, all you have to do is ask to
22 get a better copy, correct?

23 A. If I needed it, yes.

24 Q. So the fact that someone
25 furnished you with what you considered to

1 P.L. VARRIALE, M.D.

2 be an illegible copy of the Syosset
3 emergency room record isn't really what
4 prevented you from looking at it, is it?

5 MR. WALTHALL: Objection.

6 A. If I wanted a complete report
7 of the emergency room visit, and I needed
8 it, I would have inquired to how to get it.

9 Q. Right. And then did you know
10 that she was treated -- you know that she
11 was treated by a doctor by the name of
12 Goldenberg?

13 A. I'm not sure. I'd have to go
14 through my records to look at that.

15 Q. Well, here, take a look at your
16 report dated June 7th that we marked as
17 Exhibit 1. Do you have any records of
18 Central Park Physical Medicine or
19 Dr. Goldenberg that you reviewed?

20 A. Not there, no.

21 MR. WALTHALL: Referring to
22 Exhibit 1.

23 MR. SACKS: Yes, I'm only
24 referring to Exhibit 1.

25 MR. WALTHALL: He said "not

1 P.L. VARRIALE, M.D.

2 there," I wanted to clarify for the
3 record.

4 MR. SACKS: I understand.

5 MR. WALTHALL: You're agreeing
6 with me.

7 MR. SACKS: I'm agreeing with
8 you.

9 Q. Now, do you recognize the
10 medical specialty of physical medicine and
11 rehabilitation?

12 MR. WALTHALL: Just note my
13 objection to what he recognizes,
14 but --

15 A. Do I recognize it?

16 Q. Yes.

17 A. I know what it is.

18 Q. And would you agree those are
19 specialists in trying to assist patients
20 overcome injuries, correct?

21 A. Yes.

22 Q. Do you know if she consulted
23 one after the accident?

24 A. I believe she did, but I'd have
25 to go through my records to confirm that.

1 P.L. VARRIALE, M.D.

2 Q. Well, can you just look at
3 Exhibit 1 and tell me which one of those is
4 the physical medicine and rehab
5 specialists?

6 A. You asked me if she ever did,
7 and I said I don't know. According to my
8 records, I did not review any records that
9 pertained to physical medicine and
10 rehabilitation.

11 Q. Did you review any records from
12 a Dr. Yali Li?

13 A. Did I ever review records on a
14 Dr. Li --

15 Q. Let me withdraw that.

16 A. -- is that the question?

17 Q. In connection with preparation
18 of your report dated June 7, 2011 that
19 we've marked as Exhibit 1, did you review
20 the records of a Dr. Li?

21 A. No.

22 Q. Do you know what type of
23 specialist Dr. Li practices?

24 A. Sitting here, no.

25 Q. Are you familiar with

1 P.L. VARRIALE, M.D.

2 electrodiagnostic medicine?

3 A. Yes.

4 MR. WALTHALL: Objection. That

5 the name of the place or type of

6 medicine?

7 Q. Is that a form of neurological

8 specialty?

9 A. It's actually a part of an

10 evaluation that either a neurologist or a

11 physiatrist would do in evaluating the, the

12 nerve status of nerves in the neck -- from

13 the, in the upper and lower extremity.

14 Q. Are you familiar with a

15 physician by the name of John Stamatoss?

16 A. I've heard of his name, but I'm

17 not really sure what he does.

18 Q. In connection with the

19 preparation of your report dated June 7th

20 that we've marked as Exhibit 1, would it be

21 fair to say that you didn't review the

22 records of Dr. Stamatoss?

23 A. Correct.

24 Q. And in terms of your opinion,

25 do you have an opinion one way or the other

1 P.L. VARRIALE, M.D.

2 as to whether or not Miss Springer was
3 still recuperating from the effects of the
4 car accident in December 2010, which would
5 be about four and a half, five months after
6 the accident? I'm sorry, six and a half,
7 seven months after.

8 MR. WALTHALL: So you're asking
9 him, just to clarify the question,
10 you're asking him when she saw
11 Dr. Stamatatos?

12 MR. SACKS: I was using a point
13 in time, December 2010.

14 MR. WALTHALL: Whether she was
15 still recuperating from the accident
16 in May?

17 MR. SACKS: Yes.

18 MR. WALTHALL: His opinion.

19 A. You're asking me in my opinion?

20 Q. No. I'm asking based upon your
21 review of the records, you indicated she
22 had a sprain to her -- or was it a strain?

23 A. Strain.

24 Q. Strain. Find that. Just a
25 minute.

1 P.L. VARRIALE, M.D.

2 She had a strain to her
3 cervical spine, lumber spine and her
4 shoulder. Did you have records to review
5 that you looked at from December 2010 that
6 would have assisted you in determining
7 whether or not she was still recuperating
8 at that point from those strains?

9 A. I did not look at any records
10 at that time.

11 Q. And do you know whether or not
12 Dr. Stamatatos had made arrangements or had
13 recommended to the patient to have an
14 epidural?

15 A. You mean as per my record,
16 evidence 1?

17 Q. Do you know of any physician
18 who recommended that she undergo an
19 epidural prior to the time you examined her
20 on June 7th of 2011?

21 A. Not that I know of.

22 Q. Would that be significant one
23 way or the other in your evaluation of this
24 patient?

25 A. No.

1 P.L. VARRIALE, M.D.

2 Q. This person?

3 A. No.

4 Q. Now, a strain has to do with
5 the stretching or the tearing of muscles or
6 tendons, correct?

7 A. Yes.

8 Q. So you agree, would you agree
9 if you believed she had a strain of muscles
10 and tendons as a result of the impact in
11 this accident that it would not be
12 unreasonable for a patient to seek
13 treatment for those kind of injuries,
14 correct?

15 A. Correct.

16 Q. And I think you indicated you
17 did review physical therapy reports from
18 Allstate Physical Therapy, correct?

19 A. Correct.

20 Q. So at least those records
21 indicated that between June and August of
22 2010, she was seeking some form of relief
23 from whatever was bothering her, correct?

24 A. Yes.

25 Q. The records that you had

1 P.L. VARRIALE, M.D.

2 initially reviewed included reports of
3 imaging studies that showed that she may
4 have had a tear in one of the structures of
5 her right shoulder, correct?

6 A. Can I see that report again?

7 Q. (Handing.)

8 A. Can you ask the question again,
9 please?

10 Q. Do you know whether or not one
11 of the imaging studies that were done
12 either in -- that were done in June of 2010
13 or July of 2010 indicated that she had a
14 tear in her right shoulder, in one of the
15 structures of her right shoulder?

16 A. Yes.

17 Q. And can a tear of the right
18 shoulder or structure in the right shoulder
19 cause the patient to suffer some limitation
20 of motion?

21 A. Yes.

22 Q. Now, you indicated that you
23 examined the various ranges of motion of
24 her shoulder, and you felt that she wasn't
25 trying her best to show you her true range

1 P.L. VARRIALE, M.D.

2 of motion, correct?

3 A. Correct.

4 Q. But she showed it to other
5 physicians whose records you reviewed,
6 correct?

7 A. Reviewed when?

8 Q. At any time. I'm not referring
9 to specific records, I'm just saying you
10 looked at records where you indicated that
11 you found she had demonstrated better range
12 of motion?

13 A. For her shoulder, I'd have to
14 go back and look at my records.

15 Q. So you're not sure?

16 A. Right.

17 Q. And as far as her neck and her
18 back are concerned, you've determined in
19 your mind that she is a overt, meaning --
20 what does overt mean?

21 A. Obvious.

22 Q. -- an obvious malingerer. And
23 in that case, do you have an opinion why
24 she would be malingering?

25 A. She -- I think she's

1 P.L. VARRIALE, M.D.

2 malingering -- she could be malingering for
3 several reasons.

4 Q. So you don't have an opinion
5 one way or the other as to why?

6 A. I have opinions, but I don't
7 know -- it's probably a multitude of
8 opinions.

9 Q. Now, did you review any records
10 having to do with some medical procedures
11 she needed in January 2011?

12 A. Yes.

13 Q. Did you review the findings on
14 physical examination that the physicians
15 made when they admitted her to North Shore
16 University Hospital for that procedure?

17 MR. WALTHALL: Just note my
18 objection, foundation.

19 A. As of my -- as per that report
20 marked Exhibit 1?

21 Q. Yes.

22 A. No.

23 Q. In formulating your opinions of
24 June 7, 2011 that's marked as Exhibit 1,
25 then you didn't utilize any history from

1 P.L. VARRIALE, M.D.

2 any examinations of physicians at North
3 Shore University Hospital that were done in
4 January of 2011, correct?

5 A. Correct.

6 Q. Now, do you know, did you ever
7 review any records in preparation of your
8 report of June 7th from a physician by the
9 name of Dr. Kahn?

10 A. I don't believe so, no.

11 Q. And did you review any records
12 in preparation of your report of June 7,
13 2011 from a Dr. Katzman?

14 MR. WALTHALL: We're talking
15 specifically, because both reports
16 are dated June 7th, specifically
17 referring to Exhibit 1, correct?

18 MR. SACKS: In a lawsuit,
19 there's only supposed to be one
20 reported dated June 7th that's
21 involved in the case, so I'm trying
22 to stick to the one that's attached
23 to what was served in the case, so
24 when you say the two reports, I don't
25 know what you're referring to, other

1 P.L. VARRIALE, M.D.

2 than something's been marked Exhibit

3 A. It could have been prepared any
4 time, it just has a date of June 7th.

5 MR. WALTHALL: As long as we
6 understand there are two reports.

7 MR. SACKS: We don't
8 understand. The doctor hasn't
9 explained it at all. I think it's up
10 to him to explain it.

11 MR. WALTHALL: We know there
12 are two reports dated June 7th,
13 correct?

14 Q. As I said, did you review any
15 records from a Dr. Katzman in formulating
16 your opinions in your report dated June 7th
17 of 2011 that's marked Exhibit 1?

18 A. No.

19 Q. Do you know if Dr. Katzman's
20 also an orthopedic surgeon?

21 A. Yes.

22 Q. And he too is someone who
23 attended medical school, did a residency
24 and is board certified in orthopedic
25 surgery as well, correct?

1 P.L. VARRIALE, M.D.

2 A. I'm not sure if he's board
3 certified.

4 Q. Do you prepare any written
5 notes when you perform your examination at
6 the 19 West 34th Street location of a
7 patient involved in litigation, just as a
8 practice, do you normally --

9 A. First of all, it's not my
10 patient; secondly, yes.

11 Q. And do you have those written
12 notes here?

13 A. No.

14 Q. Do you send those written notes
15 to anyone?

16 A. No.

17 Q. Are they notes that are added
18 to some preprinted form?

19 A. Yes.

20 Q. Do you have a copy of the form
21 that you use?

22 A. I can get you one.

23 Q. Is it something you can get
24 here in the office?

25 A. Yeah.

1 P.L. VARRIALE, M.D.

2 Q. Then we'll, when we take a
3 break --

4 A. Okay.

5 Q. -- we can get that to complete
6 the record, okay?

7 A. Okay.

8 Q. And in there there would be
9 different areas of the body where you could
10 record different findings or measurements
11 based on your examination, is that why it's
12 a preprinted form?

13 A. It's a preprinted form.

14 Q. Why do you use a preprinted
15 form?

16 A. Because there are certain items
17 there that I could fill in, makes it easier
18 for me to do the history, take the history,
19 do the physical examination.

20 Q. When you dictated the report of
21 June 7th, your recollection was that the
22 patient told you that she had no feeling in
23 all four limbs, correct?

24 MR. WALTHALL: Objection.

25 A. She told me that she had -- she

1 P.L. VARRIALE, M.D.

2 had numbness in all four extremities.

3 Q. So did you understand that to
4 mean in every part of all four extremities
5 had no feeling?

6 A. I didn't necessarily think that
7 at that time.

8 Q. Do you think that now?

9 A. That she had numbness in all
10 four extremities, no.

11 Q. But that's what she told you.

12 A. That's what she told me.

13 Q. Did she say to you, I have
14 decreased feeling in all of them or did she
15 use some other words?

16 A. I wrote the word "numb." So
17 that's probably what she said.

18 Q. Do you think she was
19 exaggerating?

20 A. At that time, numbness in all
21 four extremities could be real.

22 Q. And then when you examined her,
23 you did find there was some diminished
24 sensation in one leg, correct?

25 A. Not some, the whole limb was

1 P.L. VARRIALE, M.D.

2 decreased sensation.

3 Q. Well, you tested each region,
4 correct?

5 A. Yes.

6 Q. And each region she said there
7 was some decreased sensation, correct?

8 A. Correct.

9 Q. And you didn't quantify how
10 much diminishment in each region, correct?

11 A. Correct.

12 Q. And in terms of the range of
13 motion of her neck, you indicated that she
14 refused to move her head past certain
15 points when you were doing the range of
16 motion examination of her neck, correct?

17 A. Well, refused, I'm not sure if
18 that's the word. I mean that's all she
19 would move.

20 Q. But what did she say happened
21 when she moved, did she say, It hurts, did
22 she say, I can't make it go any further,
23 what did she say was limiting her ability?

24 MR. WALTHALL: Objection. If
25 anything.

1 P.L. VARRIALE, M.D.

2 A. I'm not sure what commentary
3 went on at that time.

4 Q. So at no time during the course
5 of your examination did she say to you that
6 when I move my neck a certain way it hurts?

7 A. I don't recall.

8 Q. So she may have mentioned to
9 you that she experienced pain from time to
10 time?

11 MR. WALTHALL: Objection.

12 A. Well, in the history she said
13 that she had pain in her neck and lower
14 back.

15 Q. And when you examined her, you
16 said she never said to you she felt pain as
17 you were moving her through the range of
18 motion; is that your testimony?

19 A. No.

20 Q. That was a bad question.

21 So you're saying she never told
22 you, during your examination that, at any
23 point during the exam of her neck, she felt
24 pain?

25 A. I don't remember.

1 P.L. VARRIALE, M.D.

2 MR. WALTHALL: That was equally
3 bad question, objection.

4 Q. And how about when you examined
5 her low back, do you recall one way or the
6 other whether or not she complained of pain
7 at some point during the flexion, extension
8 or rotation examinations of her low back?

9 A. I don't remember.

10 Q. And do you recall if she told
11 you whether or not she experienced pain
12 during the abduction or adduction portion
13 of the shoulder examination?

14 MR. WALTHALL: Objection.

15 A. Again, I don't remember.

16 Q. Did you formulate an opinion as
17 of June 7, 2011 when the signs or symptoms
18 of her cervical strain resolved?

19 A. It was very difficult to me to
20 determine exact date.

21 Q. And would it be the same answer
22 for the lumbar spine and the shoulder?

23 A. Correct.

24 Q. You did not give Miss Springer
25 any type of neuropsychological evaluation,

1 P.L. VARRIALE, M.D.

2 correct?

3 A. None other than a normal doctor
4 would do in examining a patient, very
5 superficial.

6 Q. And did she tell you on June of
7 2011, June 7th, whether she was taking any
8 medications?

9 A. Yes, she was. Well, she didn't
10 tell me anything. I had to glean whatever
11 I had from the report.

12 Q. What medications were
13 prescribed for her that she was taking as
14 of June 7, 2011?

15 A. According to the reports, I
16 gleaned that she was taking Valium and
17 Vicodin at some point.

18 MR. WALTHALL: You should note,
19 the record should reflect the witness
20 is referring to Exhibit A.

21 Q. Actually, in Exhibit number 1
22 you say the same thing, don't you --

23 A. Yes.

24 Q. -- you say at some point in
25 time?

1 P.L. VARRIALE, M.D.

2 A. Correct.

3 Q. But did you review any records
4 before making that statement to see what
5 she was actually taking as of that time,
6 June 7, 2011?

7 MR. WALTHALL: Just note my
8 objection. At what point are you
9 talking about?

10 MR. SACKS: As of June 7, 2011.

11 MR. WALTHALL: The day of the
12 exam?

13 MR. SACKS: Yes, the day of the
14 exam.

15 A. I reviewed the records, and
16 that was all I could glean from the
17 records.

18 Q. But you didn't review the
19 records of Dr. Kahn, Dr. Stamatatos, Dr. Li,
20 or any other records from 2011 before your
21 exam of June 7, 2011, correct?

22 A. Correct.

23 Q. So when you issued your report
24 and your opinions, you didn't know one way
25 or the other whether, in fact, as of that

1 P.L. VARRIALE, M.D.

2 date she was still taking either pain
3 medication or muscle relaxant medication or
4 antianxiety medication that had been
5 prescribed by treating doctors, correct?

6 A. I wasn't sure because she
7 wouldn't answer any questions in reference
8 to that.

9 Q. Well, you indicated in your
10 report that there was no physician-patient
11 relationship between you, and you were
12 there to conduct an examination of her,
13 correct?

14 A. Correct.

15 Q. And you were free to review
16 whatever records were made available to you
17 before issuing your report, correct?

18 A. Correct.

19 Q. And then you issued your report
20 dated June 7, 2011 that we marked as
21 Exhibit 1, and it listed the records you
22 found significant to rendering that
23 opinion, correct?

24 A. Correct.

25 Q. And if there were other records

1 P.L. VARRIALE, M.D.

2 that you hadn't seen at least as of that
3 date, you wouldn't have known whether they
4 were relevant or they weren't, correct?

5 A. Correct.

6 Q. When you decide the amount
7 you're going to ask for compensation for
8 writing a report and doing an exam, is it
9 based upon the time you spent with the
10 patient?

11 A. No.

12 Q. When you determine the amount
13 you're going to ask to be compensated for
14 your time giving testimony, is it based
15 upon the amount of time involved?

16 A. Yes.

17 Q. Now, in terms of today, we've
18 been together whatever time we started up
19 till now. Did you spend any time speaking
20 with the attorney who represents the
21 defendants in this case to prepare for
22 this?

23 A. Over the phone, yes, we spoke.

24 Q. And about how long and how
25 often did you speak over the phone with the

1 P.L. VARRIALE, M.D.

2 attorney regarding issues in this case?

3 A. I spoke once about an hour or
4 so, I don't really recall exactly the
5 amount of time.

6 Q. Was that within the last month
7 or so or --

8 A. I believe so.

9 Q. Now, prior to that, I think you
10 indicated you've never spoken to the
11 attorney or anyone from his firm about this
12 case; is that correct?

13 A. Anyone from who?

14 Q. His firm.

15 A. Not that I know of.

16 Q. So there was the hour or so you
17 spent preparing. Is that included in the
18 \$10,500 charge that will be assessed for
19 your time today?

20 MR. WALTHALL: Note my
21 objection.

22 A. I'm not sure.

23 Q. Who will make that
24 determination?

25 A. I'm not sure what you mean.

1 P.L. VARRIALE, M.D.

2 Q. Well, one of the other things
3 in federal practice that the Rule 26
4 information is supposed to contain is the
5 compensation the expert shall receive for
6 their time in court, the amount that they
7 charge for a report or evaluation of the
8 patient, and whatever other sums they may
9 be entitled to based on the time they've
10 put in. It's just part of the disclosure.
11 So that's why I asked whether there will be
12 additional fees for the time spent in
13 preparing for this or time spent reviewing
14 records in addition to the \$715 that was
15 indicated as having been charged for the
16 report of June 7th, plus the 10,500 that
17 will be charged for your time today.

18 MR. WALTHALL: Objection. I
19 don't think there's a question.

20 A. As far as I know and remember,
21 yes, the answer is yes, that's what the fee
22 is.

23 Q. And will there be additional --
24 I'm sorry, you've indicated you spent about
25 an hour or so. Will the attorney or the

1 P.L. VARRIALE, M.D.

2 representatives be billed for that time?

3 A. I don't remember if we billed
4 them or not.

5 Q. Do you have an hourly rate that
6 you bill out at?

7 A. Not necessarily.

8 Q. How do you decide how much to
9 seek as compensation for time spent, as you
10 did with the attorney here, going over the
11 issues of the case for an hour or whatever
12 amount of time?

13 A. It depends on how much records
14 I have to review to speak to him and how
15 much time it takes.

16 Q. And so here you said you spent
17 about an hour or so. Is that plus time you
18 spent reviewing records?

19 A. No.

20 Q. So for that time --

21 A. I'm sorry, I reviewed records
22 during the conversation, but I don't
23 recall -- I probably reviewed records prior
24 to talking to him also.

25 Q. So who's going to decide how

1 P.L. VARRIALE, M.D.

2 much the billing will be for that time?

3 A. I would.

4 Q. And how do you go about making
5 the determination? I asked you if it was
6 an hourly, and you said not.

7 A. I would say it's about \$1,000
8 an hour or so.

9 MR. SACKS: Thanks. I have no
10 other questions for you.

11 THE WITNESS: You're welcome.

12 MR. WALTHALL: I have a couple.

13 THE WITNESS: Yep.

14 EXAMINATION BY

15 MR. WALTHALL:

16 Q. Doctor, you mentioned that --
17 on cross-examination you were asked if you
18 charged \$10,000 for your testimony. You
19 charge for the time away from your office
20 or the time that you've had to clear your
21 schedule, correct?

22 A. Correct.

23 MR. SACKS: Note my objection
24 to the form.

25 Q. Did you, in fact, review the

1 P.L. VARRIALE, M.D.

2 plaintiff's MRI films?

3 A. Yes.

4 Q. And that supported your prior
5 diagnosis for the plaintiff, correct?

6 MR. SACKS: Note my objection
7 to the leading.

8 A. Yes, it did.

9 Q. You testified on
10 cross-examination about the fact that it
11 wasn't relevant that Miss Springer was
12 referred for an epidural. Why wasn't it
13 relevant to you?

14 A. Because what's relevant to me
15 is a patient that's sitting in front of me,
16 and I talk to her, and I examine her, and I
17 make a determination at that time, you
18 know, what treatment is required, and what
19 my diagnoses are. Whether she was referred
20 to an epidural, you know, two or
21 three months ago is not important to me.

22 Q. And you also testified with
23 respect to the fact that the plaintiff's
24 MRI showed that she had a tear in her
25 shoulder; is that correct?

1 P.L. VARRIALE, M.D.

2 A. Yes.

3 Q. Okay. Do you believe that a
4 tear in her shoulder caused her problems?

5 A. I don't believe so, no.

6 Q. Why not?

7 A. It is very hard to say. I mean
8 she had a, what's called a glenoid tear,
9 glenoid labral tear, and sometimes it
10 causes pain and sometimes it doesn't, but
11 because she had so much malingering and
12 restrictions and not allowing me to examine
13 her shoulder, it's hard to say.

14 Q. You also testified that she had
15 numbness in all four extremities, that she
16 complained of numbness in all four
17 extremities.

18 A. Correct.

19 Q. Was that numbness consistent
20 with what you found on the exam of
21 Miss Springer?

22 A. No.

23 MR. WALTHALL: Thank you.

24 EXAMINATION BY

25 MR. SACKS:

1 P.L. VARRIALE, M.D.

2 Q. You rendered no written
3 opinions about what you saw or didn't see
4 in imaging studies in your report dated
5 June 7th, correct?

6 A. Correct.

7 MR. WALTHALL: Objection, asked
8 and answered.

9 Q. And you say that you think that
10 she was indicating so much malingering.
11 That's your opinion, correct?

12 A. Correct.

13 Q. Then it will also be your
14 opinion that every doctor who disagrees
15 with you is wrong, correct?

16 MR. WALTHALL: Objection.
17 Objection, beyond the scope.

18 A. Correct.

19

20 (Continued on next page to
21 include jurat.)

22

23

24

25

1 P.L. VARRIALE, M.D.

2 MR. SACKS: I have nothing

3 further.

4 MR. WALTHALL: Thank you.

5 THE VIDEOGRAPHER: We're off

6 the record at 2:38 p.m.

7 (Whereupon, at 2:38 p.m., the

8 Examination of this witness was

9 concluded.)

6

I, MARY ROBOLD, a Notary Public for
and within the State of New York, do hereby
certify:

8

9

That the witness whose examination is
hereinbefore set forth was duly sworn and
that such examination is a true record of
the testimony given by that witness.

10

11

12

13

I further certify that I am not
related to any of the parties to this
action by blood or by marriage and that I
am in no way interested in the outcome of
this matter.
